

REACH SVHC Compliance Declaration

S4J Manufacturing Services, Inc., recognizes our responsibility to assist you, our customers, in meeting your environmental policies and procedures.

Under the definitions of Regulation (EC) No. 1907/2006 of the European Parliament and of the council concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), S4J produces “articles”, objects which during production are given a special shape, surface or design which determines its function to a greater degree than does its chemical composition. As supplied, there are no substances intended to be released from these products under normal or reasonably foreseeable conditions of use.

S4J Manufacturing Services, Inc. manufactures some products from Brass C36000 which contains lead in concentration above 0.1% weight by weight (w/w), thus a Substance of Very High Concern (SVHC) as listed by the European Chemicals Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006 of the European Parliament and of the council concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) per the ECHA Candidate List of SVHC dated 23 January 2024 and previous updates. As supplied, there are no substances intended to be released from these products under normal or reasonably foreseeable conditions of use.

S4J Manufacturing Services, Inc. certifies that products produced by our company from materials other than Brass C36000 do not contain Substances of Very High Concern (SVHC) in concentration above 0.1% weight by weight (w/w) as listed by the European Chemicals Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006 of the European Parliament and of the council concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) per the ECHA Candidate List of SVHC dated 23 January 2024 and previous updates.

With regards to entry 27 of Annex XVII to the above referenced REACH Regulation (Ni and its compounds), S4J Manufacturing Services, Inc. does not produce articles that fall within the conditions of restriction. The nickel in the surface finish of our electroless nickel plated parts, is not intended to be released from the parts and is not intended to come into direct and prolonged contact with skin.
